

WBGS-Wafer Butterfly Valve-Signal

WBGS is a wafer type butterfly valve with 3-wires signal for transmitting the valve in close or open position.

Features:

- .Advanced pinless design, stronger connection between the stem and disc, and preventing loose and leakage during water hammer.
- .Valve seat fully coated with EPDM/ NBR rubber to prevent corrosion.
- .With worm gear operator, Nickel plated disc and outside body coated with epoxy.

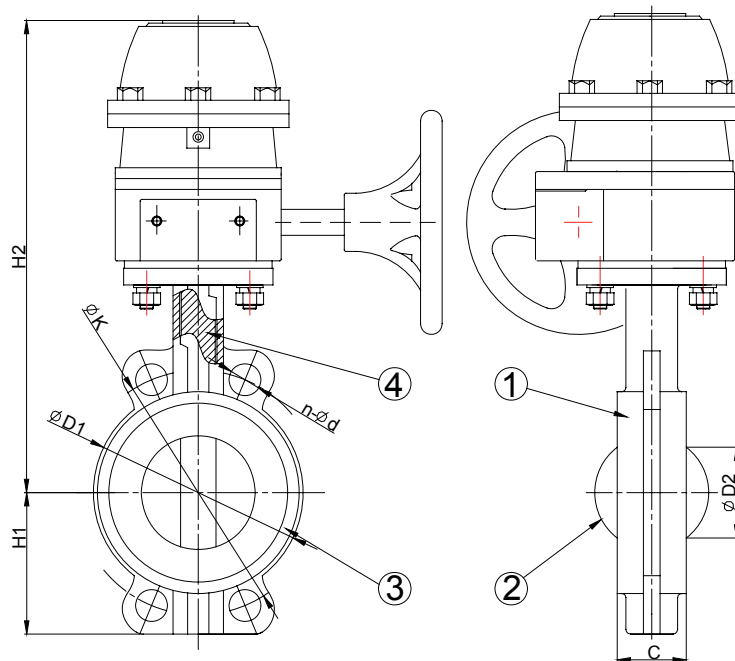

Service Fields:

For Fire Fighting System

Technical Data:

Size Range: DN50- 300mm
Ratings: 1.0Mpa; 1.6Mpa
Working Temperature: -10°C ~ 80°C
For Connection: PN10; PN16

WBGs-Main Valve

Part List

Item	Name	Material	Standard
1	Body	Ductile Iron	GJS 500-7
2	Disc	Ductile Iron Coated by Nickel	GJS 500-7+ Nickel
3	Seat	Rubber	EPDM
4	Stem	Carbon Steel	C45

Dimension

Unit :mm
